Thirty-Fifth Volume—January, 1939, to December, 1939

GENERAL INDEX

[Illustrated articles are indicated thus.* Editorials are indicated thus†]

Issues	Page Numbers	Issues	Page Numbers
January	1 to 58	July	387 to 446
February	59 to 112	August	447 to 500
March	113 to 208	September	501 to 554
April	209 to 270	October	555 to 646
May	271 to 330	November	647 to 730
June	331 to 386	December	731 to 790

A

Abandonments:
Losses resulting to communities..... †403
Abutments:
Underpinning saves old structure.... *589
Accidents:
Damaged switches cause two derailments *360
Ditcher strikes passenger train..... 474
Lessons to be learned from bridge failures *25
Motor car collides with freight train 233
On the railways in 1938..... †345
Track buckles under freight train.... 531
With motor cars are avoidable..... †229
Adams & Westlake Company..... 320
Air Reduction Sales Company:
Airco welding of wheel-burned rails *170
Develops new radiagraph..... *176
News item 494
Alcoma Railway Equipments..... 492
Allen Equipment & Supply Company..... 320
Allis-Chalmers Manufacturing Company:
Pusher attachment for tractors..... *175
American Brake Shoe & Foundry Company:
Depth-hardened crossings..... *41
News item 376
American Bridge and Building Supply Men's Association:
Consider consolidated exhibit..... 179
List of exhibitors..... *704
News items..... 435, 492, 542, 631
American Hoist & Derrick Company..50, 546
American Railway Bridge and Building Association:
Convention program..... 631
Convention report..... *675
News items....48, 317, 435, 492, 542, 773
American Railway Engineering Assn.... †74
Changes in committee personnel..... 262
Convention an opportunity..... †74
Convention program..... *162
News items 50, 102, 317, 371, 438, 492, 542, 631, 715, 773
Proceedings of 1939..... 484
American Railway Excavators, Inc..... 636
American Rolling Mill Company..... 378, 438
American Steel & Wire Company..... 104, 262, 320, 378
American Wood-Preservers' Association:
News items 48, 262, 435, 492, 715, 773
Proceedings of 1939..... 771
Ames Shovel & Tool Company..... 50
Anti-Creepers:
Anchoring track to meet present-day conditions..... *612
Prevention of creepage..... †516
Rail creepage can be controlled..... *518
Armco Culvert Manufacturers Assn. 494, ... 780
Armco Drainage Products Association:
New Armco pipe arch..... *771
New item..... 780
Armco Railroad Sales Company..... 492, 636
Atchison, Topeka & Santa Fe:
Water supply at Shopton, Iowa..... *305

B

Bakelite Corporation..... 636
Ballast:
Causes of churning on bridges..... 312
Does kind affect lift?..... 425
Effect of oiling on..... 366
Need for ballast when raising track †463
Pennsylvania grouts ballast for better roadway support..... *410
Ballast Cleaning:
At railway crossings..... 184
How drain inter-track spaces after? 538
Improved power track cribber..... *177
Baltimore & Ohio:
What this road has learned from treated timber *298
Barco Manufacturing Company:
Battery and coil hookup for Tytampers *483
Improvements in Tytamper..... *255
Portable gasoline-powered drill..... *171
Barrels, Water:
Care of on bridges..... 708
Beckwith Machinery Company..... 262
Belt Railway of Chicago:
Electric switch heaters installed in Clearing yard..... *145
Rebuilds long icing platform at Clearing, Ill..... *244
Bethlehem Steel Company:
New Bethanized wire rope..... 174
Big Four Foreman's Association:
Paper on maintaining turntables.... *302
Blast Plates:
Materials for..... 39
Method of fastening..... 764
Book Reviews:
Fieldbook on Decay in Timber..... 713
Proceedings of American Railway Bridge and Building Association, 1938..... 369
Proceedings of American Railway Engineering Association, 1939.. 484
Proceedings of the Roadmasters' and Maintenance of Way Association, 1938..... 369
Trade Standards of Compressed Air Institute 315
Wood Preservers' Proceedings..... 771
Boston & Maine:
Work equipment plays important part in rebuilding after floods.. *146
Bridges and Bridge Work; see also Abutments, Foundations, Preframing, Trestles, Welding:
Can low spots at bridge ends be avoided? ..... †404
How the D. & H. checks the stream bed about them..... *230
Lessons to be learned from failures *25
Methods for locating lost structures *355
Safeguarding bridge structures..... *696
Bucyrus-Erie Company..... 262
Buda Company:
Hydraulic jack for track inspection *540
Jack for pulling spikes and bolts.... *629
News items..... 378, 546, 636, 722
Buildings and Building Work; see also Roofs, Floors, Walls, Skylights, Painting:
Increased use of treated timber in.. †346
Modern materials for repairs..... †582
Byers Company, A. M..... 320, 494, 780

C

Carbide and Carbon Chemicals Corporation 494
Carboloy Company, Inc.:
Drill for concrete and masonry..... *178
Carnegie-Illinois Steel Corporation..262, 546
Cars, Motor; see Motor Cars:
Caterpillar Tractor Company:
New R2 tractor..... *427
News items 104, *427
Central of Georgia:
Freight train derailed at switch.... *360
Chesapeake & Ohio:
Passenger train derailed at switch.. *360
Repairs pier with treated timber.... *352
Chicago & North Western:
Renews rail cushion timbers under rails at Chicago station..... *526
Underpins old masonry abutment.. *589
Chicago, Burlington & Quincy:
Brings hillside stream under effective control *356
Chicago, Milwaukee, St. Paul & Pacific:
Grinds cropped rail ends..... *466
Re-roofs train shed at Milwaukee.... 472
Smooths high hardened rail ends by grinding *464
Chicago Rapid Transit Company:
Uses treated black gum for highway crossings *415
Chicago, Rock Island & Pacific:
Modernizes passenger station at Manhattan, Kan. *84
Claw Bar:
Flex-Toe type *255
Cleveland Tractor Company..... 378
Coaling Stations:
Keeping out fires..... *417
Protection against fire..... 86
Columbia Steel Company..... 636
Compressors, Air:
Advantages of in bridge and building work 248
Ingersoll-Rand develops new line.. *629
Ingersoll-Rand heavy-duty unit..... *170
Concrete and Concrete Work:
Causes, detection and methods of repair *698
Glazecoat method of color-finishing 428
Connectors, Metal:
Use of Gains..... *586
Construction:
Extent on the railways in 1938..... †17
Corrugations, Rail:
Removed by grinder car on Pennsylvania *80
Crane Company..... 320
Cranes:
Lima convertible shovel-dragline-crane *428
Cribbing Machines:
Improved Power Ballaster unit..... *177
Crossings, Highway:
Accidents at in 1938..... †345
Best species of timber plank for.... 93
Use treated black gum on Chicago Rapid Transit Lines..... *415
Crossings, Railroad:
Cleaning ballast at..... 184
Depth-hardened AMSCO design..... *41
Culverts:
Filling over concrete culverts..... 363
Curves; see also Lubricators:
Elevating for low speed..... 40
Elevation of on slow-speed track.... 369
Maintenance of for high-speed trains *604

D

Dearborn Chemical Company:
Improved Tannin brick water treatment 255
News item..... 492
Delaware & Hudson:
Checking the stream bed about bridges *230
Des Moines Foundry & Machinery Co.... 494
DeVilbiss Company:
Extension handle for spray painting *179
Ditching, see also Drainage, Roadbed:
After snow plows..... 94
Limit of trucking by section forces 626
Douglas Fir Plywood Association 494, 722
Dragline:
Lima convertible shovel-dragline-crane *428
Drainage; see also Subdrainage:
Armco pipe arch..... *771
Helps stop slides in cut on Erie.... *522
How drain inter-track spaces after ballast cleaning?..... 538
To stabilize roadbed..... *750
Drainage Engineering Company..... 376, 492
Drills:
Barco portable gasoline-powered unit *171
Carboloy type for concrete and masonry *178
Duff-Norton Manufacturing Company:
New piling puller *713
Eagle Grinding Wheel Company..... 196

E

Eaton Manufacturing Company, Reliance Spring Washer Division:
New spring washer and spring lock *176
Elastic Rail Spike Corporation..... 540
Electric Tamper & Equipment Company:
Improvements in Jackson concrete vibrator *172
New spot tamper power unit and tamping blade..... *628
Electrodes:
New G.E. types for arc welding..... *173
Employees:
An asset to a community..... †665
Effect of abandonments on..... †403
Interest in railroad welfare..... 315
Number in 1938..... †17
What railroad taxes mean to them.. †287

Thirty-Fifth Volume—January, 1939, to December, 1939

GENERAL INDEX

[Illustrated articles are indicated thus.* Editorials are indicated thus†]

Compressors, Air:
Advantages of in bridge and building work 248
Ingersoll-Rand develops new line.. *629
Ingersoll-Rand heavy-duty unit..... *170
Concrete and Concrete Work:
Causes, detection and methods of repair *698
Glazecoat method of color-finishing 428
Connectors, Metal:
Use of Gains..... *586
Construction:
Extent on the railways in 1938..... †17
Corrugations, Rail:
Removed by grinder car on Pennsylvania *80
Crane Company..... 320
Cranes:
Lima convertible shovel-dragline-crane *428
Cribbing Machines:
Improved Power Ballaster unit..... *177
Crossings, Highway:
Accidents at in 1938..... †345
Best species of timber plank for.... 93
Use treated black gum on Chicago Rapid Transit Lines..... *415
Crossings, Railroad:
Cleaning ballast at..... 184
Depth-hardened AMSCO design..... *41
Culverts:
Filling over concrete culverts..... 363
Curves; see also Lubricators:
Elevating for low speed..... 40
Elevation of on slow-speed track.... 369
Maintenance of for high-speed trains *604

D

Dearborn Chemical Company:
Improved Tannin brick water treatment 255
News item..... 492
Delaware & Hudson:
Checking the stream bed about bridges *230
Des Moines Foundry & Machinery Co.... 494
DeVilbiss Company:
Extension handle for spray painting *179
Ditching, see also Drainage, Roadbed:
After snow plows..... 94
Limit of trucking by section forces 626
Douglas Fir Plywood Association 494, 722
Dragline:
Lima convertible shovel-dragline-crane *428
Drainage; see also Subdrainage:
Armco pipe arch..... *771
Helps stop slides in cut on Erie.... *522
How drain inter-track spaces after ballast cleaning?..... 538
To stabilize roadbed..... *750
Drainage Engineering Company..... 376, 492
Drills:
Barco portable gasoline-powered unit *171
Carboloy type for concrete and masonry *178
Duff-Norton Manufacturing Company:
New piling puller *713
Eagle Grinding Wheel Company..... 196

E

Eaton Manufacturing Company, Reliance Spring Washer Division:
New spring washer and spring lock *176
Elastic Rail Spike Corporation..... 540
Electric Tamper & Equipment Company:
Improvements in Jackson concrete vibrator *172
New spot tamper power unit and tamping blade..... *628
Electrodes:
New G.E. types for arc welding..... *173
Employees:
An asset to a community..... †665
Effect of abandonments on..... †403
Interest in railroad welfare..... 315
Number in 1938..... †17
What railroad taxes mean to them.. †287

Erie:
Stops slides with drainage and cinders *522
Expenditures:
By the railways in 1938 †17
Deficiency in for maintenance †139
Will spend 100 per cent more for work equipment in 1939 *142

F

Fairbanks Morse & Company:
News item 50
Offers six new motor cars *174
Fairmont Railway Motors, Inc.:
Improves its weed mower *178
Many improvements in motor cars *168
News items 378, 438, 780
Fence:
Care of treated posts 88
Fires:
In coaling stations *417
Protection against in coaling stations 36
Fissures, Transverse:
Manufacture and maintenance of rail to eliminate *668
Still a threat in rail †667
Flexrock Company:
Aggregate for floor-patching mixes 484
Elastic roof coating 171
Floor and pavement resurfacer *177
News item 196
Floodlights:
Hunter emergency carbide light *175
Floods:
Checking the stream bed about bridges *230
C. B. & Q. brings hillside stream under control *356
Have found solution of stream erosion †347
Preparing for those in spring 185
Protection against wave action 180
Work equipment invaluable in rebuilding after floods *146
Floors:
Aggregate for floor-patching mixes 484
Colormix-Kuro-Krome concrete floors 771
Finish for hardwood 711
Flexrock floor and pavement resurfacer *177
How overcome dusting? 766
Foremen:
Should they ride trains? 90
Forms, Concrete:
Special materials prove popular for *529

G

Gage and Gaging:
Gaging or lining, which first? †346
Should the ballast gang regage new rail? †288
Gage, Rods:
Use with thick track shims 770
Gangs:
Specialized versus Section *600
General Electric Company:
News item 780
Three new arc welding electrodes *173
Glass; see also Glazing:
Advantages of wire glass 627
Glazing:
Maintenance in shops and enginehouses *692
Great Northern:
Tie renewal costs cut 30 per cent *406
Greenheart Lumber Company, Inc., of Delaware 376
Grinders and Grinding:
Improved Mall B & B machine *171
Milwaukee grinds cropped rail ends *466
Milwaukee smooths high hardened rail ends *464
Pennsylvania unit removes rail corrugations *80
Grinnell Washing Machinery Corp. 494
Gulf, Mobile & Northern:
Builds transfer platform with scrap rails *33
How it checks safety of tools 243

H

Hammers:
Syntron heavy-duty electric unit *175
Handlan-Buck Manufacturing Company 50
Harnischfeger Corporation:
Compact electric arc welder *713
Hauck Manufacturing Company 50
Haynes Stellite Company 494
Heat Treating:
Rail ends on the Pennsylvania *240
Heath Railway Supply Company 50
Heaving, Track:
Causes, control and maintenance *596
Causes studied by committee †583
Hicks, W. E. Construction Company 636
Highways:
Costs brought to light †73
Public officers point to dangers †461
Hobbs-Western Company 636
Homelite Corporation 546
Hunter Manufacturing Corporation:
Emergency carbide light *175
News item 196

I

Ice:
Preventing accumulation on tracks at water stations 88
Preventing around switches 710
Industrial Brownhoist Corporation 378
Ingersoll-Rand Company:
Develops spot tamper unit *427
Heavy-duty portable compressor *170
New portable air compressors *629
News items 196, *427, *629
Ingot Iron Railway Products Company 376, 492, 636
Inland Steel Company 50, 320, 546
Inspection; see also Track Awards:
How frequent should steel spans be inspected? 479
How often should water columns be inspected? 536
Methods of inspecting switches and switchstands 34
Value of tie inspector 711
Insulation, Thermal:
Is profitable in railway buildings †748
Practicability of insulating existing buildings 534
Insulite Company 196
International Harvester Company:
New TD-18 Trac-Trac-Tor *168

J

Jacks:
Buda hydraulic type for track inspection *540
For pulling spikes and bolts *629
Improved 15-ton emergency jack *169
New Simplex screw-jacks *177
Push and pull type *540
Johns-Manville Sales Corporation 317, 320, 438
Johnson, B., & Sons 636

K

Kalamazoo Railway Supply Company 50
Kinnear Manufacturing Company 546
Koppers Company 494, 636
Koppers United Company 546

L

Letters to the Editor:
Care of treated ties 254
Elevating curves for low speed 369
Employee activity 315
Pumps without pump houses *254
Special ruler for lining curves *315
Lima Locomotive Works, Inc.:
Convertible shovel-dragline-crane *428
Linde Air Products Company 494
Lining, Track:
Distance between center stakes 314
Effect of irregular line on †383
Gaging or lining, which first †346
Stringline gage for setting stakes *483
Link Belt Company 546
Link-Belt Speeder Corporation 546
Lubricators:
Improved Meco for yards *166
Lufkin Rule Company:
New rugged rule *428
Lumber:
Use of short lengths 186

M

Maintenance Equipment Company:
Improved yard-type Meco lubricator *766
Maintenance of Way:
Confusion regarding amount of maintenance deferred †227
Effect of war emergency on †581
English officer compares practices *76
How much deferred maintenance? *234
How much deficiency in? †139
Streamlining track for high-speed trains *671
Maintenance of Way Club of Chicago:
Election of officers 317
News items..48, 102, 194, 262, 715, 773
Mall Tool Company:
Improved B & B machine and grinder *171
News item 780
Portable bridge and building unit *484
Masonry:
How permanent is it? *759
How should it be pointed? 424
Why not solidify and save stone masonry? †463
Master Builders Company:
Colormix-Kuro-Krome concrete floors 771
Glazecoat method of color-finishing concrete 428
Metropolitan Maintenance of Way Club:
Election of officers 317
News items 48, 102, 194, 262, 371, 715, 773
Midwest Forging Company 50
Missouri Pacific:
Track buckles under freight train 531
Morden Frog & Crossing Works 50
Motor Cars:
Facilities for repairing on the Frisco *154
Many improvements in Fairmont models *168
Measures to prevent overloading 623
Repair supplies for section foremen 767
Six new Fairbanks-Morse models *174

N

National Aluminate Corporation 546
National Lock Washer Company 50, 196
National Lumber Manufacturers' Assn.:
Use of timber connectors gains *586
National Railway Appliances Assn.:
Consider consolidated exhibit 179
Exhibits in connection with A.R.E.A. convention *164
News item 102
New York Central:
Localizes work equipment repairs *150
New York, New Haven & Hartford:
Ditcher strikes passenger train 474
Employs new oxy-acetylene process for butt-welding rails *28
Work equipment plays important part in rebuilding line after floods *146
Nordberg Manufacturing Company:
Improved power wrench *167
Norfolk & Western:
Blocks work equipment in cars *307
Controls creepage of rail *518
Ramp for unloading work equipment *419
What treated ties have meant to this road *87
Northwestern Motor Company 320

O

Ohio Brass Company 50
Oiling:
Advantages of oiling rail joints periodically 481
Organization:
For efficiency in timber-trestle work *413
For repairing work equipment on the Frisco *154
For repairing work equipment on the N.Y.C. *150
Gangs in England *76
Oxweld Railroad Service Company:
New oxy-acetylene process for butt-welding rails *28
News item 196

P

Paint and Painting:
Bridge problems resulting from deferred maintenance *682
Causes of fading and spotting 311
Chance to get some authorized †288
Concrete surfaces 761
DeVilbiss extension handle for spray painting *179
Enginehouse sash 709
Extenders of 251
Failures on brick 181
Hardness of undercoats 91
How soon after a rain? 421
Of concrete surfaces 539
Of steel sash in enginehouses and shops 364
Spotting of varnished surfaces 768
What preliminary work? 477
Pennsylvania:
Grouts ballast for better roadway *410
Lays rail without slow orders *290
Rail end hardening on *240
Removes rail corrugations *80
Pettibone Mulliken Corporation 494, 546
Piers:
C. & O. structure repaired with treated timber *352
Piles and Pile Driving:
Duff-Norton piling puller *713
How repair when one fails? 309
New metal shoe for *540
Skinning for use in foundation 624
Steel piles valuable for anchoring substructures †75
Pipe and Pipe Lines:
Advantages of welded joints 480
Causes of air pockets in 249
Locating obstructions in 96
Maintenance during winter 707
Protection against corrosion 313
Pittsburgh Screw & Bolt Corporation:
Anti-splitting drive dowels *172
New spiral spike *178
News item 50
Platforms:
Built with scrap rail *33
